

is a representation of design concepts and ideas and is intended to be used as a proximate layout and configuration. Whereas actual on-site variations and by order. Markey's cannot be held responsible for submitting this as an exact plan, layout, or engineering drawing. It is the show's responsibility to erect this design structure while meeting applicable OSHA standards, and ultimately to verify that all listed and fire codes are met or exceeded.

DISCLAIMER:
 The designer is not a licensed structural engineer and is not qualified to determine design loads, structural safety and/or building code requirements. Weights are estimated. It is the show's responsibility to employ a certified rigger and structural engineer to evaluate and verify loads for each venue. It is the show's responsibility to ensure proper installation, using properly engineered and approved materials, components, and methods. All ideas and concepts contained within cannot be reproduced, redrawn, or disclosed in any form or company without express written consent of Markey's Rental & Staging.
